### ABOUT ME

I am a Front-End Developer with 2.6 years of experience specializing in JavaScript, TypeScript, React, and Next.js. Passionate about building user-friendly and high-performance web applications, I enjoy crafting intuitive UI/UX experiences and optimizing front-end performance. Always eager to learn and stay updated with the latest technologies in the web development ecosystem.

### WORK EXPERIENCE

**May 2024 - APR 2025**

**Front-End Developer at PTT Digital Solution (Outsourced Onsite)**

- Developed and maintained a POS BackOffice Web Application for a large-scale retail business.
- Built the front-end using Next.js and TypeScript, ensuring scalability and performance.
- Worked closely with back-end developers and business teams (without a dedicated UX/UI team) to design and implement UI components based on business requirements.
- Integrated various APIs to support POS operations, data analytics, and real-time updates.

**Set 2023 - Dec 2023**

**Full-Stack Developer ICreativeSystems Co.,Ltd**

- Separated responsibilities between Front-end and Back-end
- Developed front-end using React, TypeScript, and Material UI
- Developed APIs using Golang for back-end.
- Managed PostgreSQL database.
- Utilized Docker and Google Cloud Platform.

**Jun 2022 - Aug 2023:**

**Front-end Developer at ICreativeSystems Co.,Ltd**

- Developed user interfaces with React, TypeScript, and Material UI
- Collaborate with designer and Backend teams to ensure seamless integration of UX/UI designs and APIs.
- Develop a responsive and user friendly.
